

Product Trials

All new products must be trialled unless they comply with the “Fast Track” purchasing guidelines for urgent requests. Prior to trialling there is a strict approval procedure and which must be adhered to. For more information please refer to the Procedure for **New Medical Products Request** .

All products and equipment for evaluation must be accompanied by the appropriate WHCG trial documentation and where relevant, user and service manuals. Appropriate levels of supervision, education, cleaning guidelines and support must be provided by the supplier representative for any product evaluation.
